Ed, Mike, Rick, our language on PFAS in pesticide containers is now in the briefing documents, largely thanks to Rhina who helped out immensely. I reviewed and added some thoughts.

I'm not sure what the typical review process is for this, but I think it's likely the right time for one of you to go in to add your thoughts and see if you think it meets the needs. Thank you!

Quick status information: I'm working to get Greg's team access to the files. They're able to take a first cut at the language based on material already prepared, and they'll tag me for review/clearance. Just letting you know status.

Kimberley can you update the paper regarding the testing, working with Greg's shop?

**Subject:** Re: You have been added to a team in Microsoft Teams

It had been being led out of the Administrator's Office, given the cross-office equities.

Rick Keigwin  
Acting Deputy Assistant Administrator for Management

IDK – is it a R1 lead; OEACA lead; OCSPP (OPPTS lead or OPP lead)?

Seems like OPP has been doing testing (BEAD) and working with Clark on a process to modify registrations for existing products (RD). OECA issued the information request regarding packaging processes and OPPTS has a lead role on PFAS issues.

Either if you can reach out.

Who will be adding the piece about the container issue to the briefing paper?

Ed – Looks like I am the only one from OPP looped into this site. Do you want to reach out to Jennifer to add you, Mike, Kimberly and Catherine or would you like me to?  
thanks

All – Please add your changes/comments to the draft briefing in the folder below. We anticipate that the “PFAS TPs Background+ActionPlan Summary” document will be provided as a read ahead so please provide any needed updates on that document too.

Jennifer & Susan
